

How to Use Key Words to Find the Right Results in a Database

1) Use the right database(s) for searches.

2) Start with the main word(s) not a question.

3) Look at the initial search results – did the search retrieve “on-topic” results? If not, then go to Step 5

4) Use the “similar results” links in and at the end of each article. These are additional key words that you can use creating new searches.

- Subjects:**
- [ONLINE social networks](#)
 - [SOCIAL media](#)
 - [TECHNOLOGY & society](#)
 - [FACEBOOK \(Web resource\)](#)
 - [TWITTER \(Web resource\)](#)

5) Use other key words or combinations of key words to create desirable results.

Searching: [Canadian Reference Centre](#), [Show all](#) | [Choose Databases](#)

	social media	Select a Field (optional) ▾	Search	
AND ▾	mental health	Select a Field (optional) ▾		Clear ?
AND ▾		Select a Field (optional) ▾		+ -

[Basic Search](#) [Advanced Search](#) [Search History](#) ▶

6) If the search does not retrieve useful results, try other searches related to the topic.
